

REACH Compliance Declaration

Date: 28th June 2024

REACH is a European Community Regulation on chemicals and their safe use (EC 1907/2006). It deals with the Registration, Evaluation, Authorisation and Restriction of Chemical substances. The law entered into force on 1 June 2007. The goal of REACH is to improve the protection of human health and the environment through the better and earlier identification of the intrinsic properties of chemical substances. Currently the European Chemicals Agency identifies **241** SVHC's (Substance of Very High Concern) as potentially harmful. In accordance with Article 33 in the REACH regulation, it is our duty to disclose the presence of SVHC's in excess of 0.1% of article weight.

Appian Fasteners is aware of its responsibilities put forth by REACH and is working with its supply base to ensure that we are compliant.

Due to the wide ranging industries that we serve, Appian Fasteners certify all products supplied by Appian Fasteners do not contain any Substances of Very High Concern (SVHC) as a result of the REACH regulation candidate list unless expressly identified as non compliant stock before sale.
